

COVID Update for July 15, 2021

Today we have had two additional patients test positive for COVID-19. This brings the total in this outbreak to three patients and one staff member who have tested positive this week. With these two positives today we did test the entire first floor and found no additional positives. Contact tracing for this new positives has begun and individuals who were identified in that contact tracing will be notified.

These cases are also on our first floor and do not impact our second floor. Visitors are still not permitted on the first floor for a period of at least 14 days from today. Visitors are permitted on our second floor at this time. We will continue outbreak testing of all of our residents, patients and staff in the Greensburg facility weekly as required.
